# How to take measurements

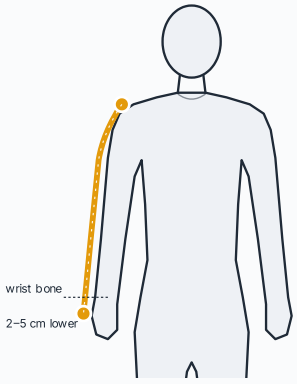

UPPER BODY · 1–4

Your costume is made to your body, so accurate measurements matter. Take them in centimetres or inches and write them into the form on page 1. If anything is unclear, send us a photo and we will help.

**Wear thin clothing**
A T-shirt and leggings, or underwear. No jackets or thick jumpers.

**Ask someone to help**
It is hard to measure yourself accurately, especially shoulders and back.

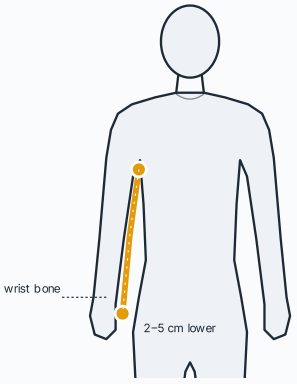

**Keep the tape snug**
Flat against the body, not tight. Stand straight and relaxed.

## 1 Sleeve length

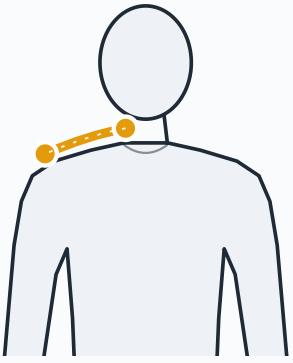

Measure from the shoulder joint down the outside of the arm to 2–5 cm (1–2 in) below the wrist bone — where you want the sleeve to end.

Keep the arm slightly bent.

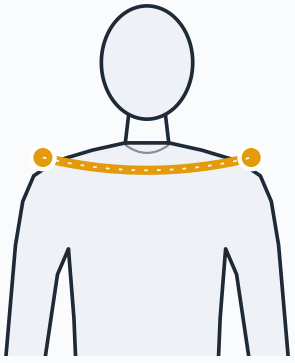

## 2 Underarm length

Measure from the armpit along the inside of the arm to 2–5 cm (1–2 in) below the wrist bone.

## 3 Half shoulder width

Measure from the base of the neck to the shoulder joint, following the top of the shoulder.

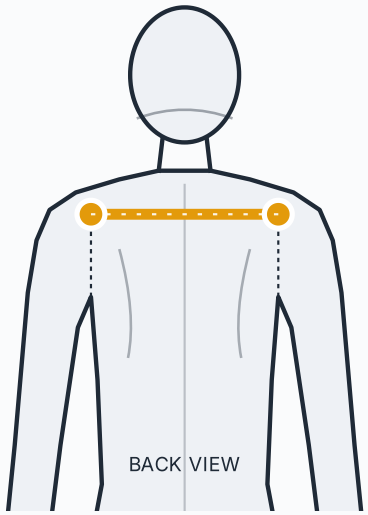

## 4 Shoulder to shoulder, front

Measure across the front of the body from one shoulder joint to the other.

# How to take measurements

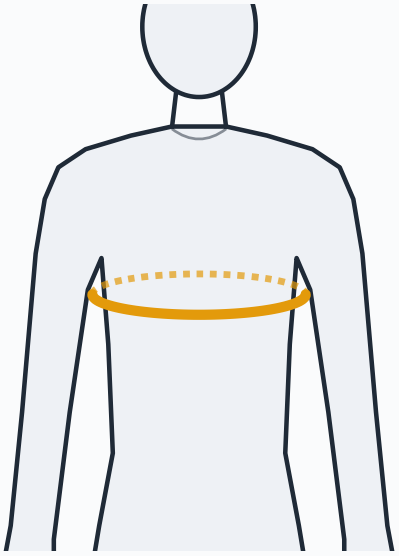

## 5 Shoulder to shoulder, back

On the back, imagine a vertical line going up from each armpit to the shoulder. Measure straight across between these two points.

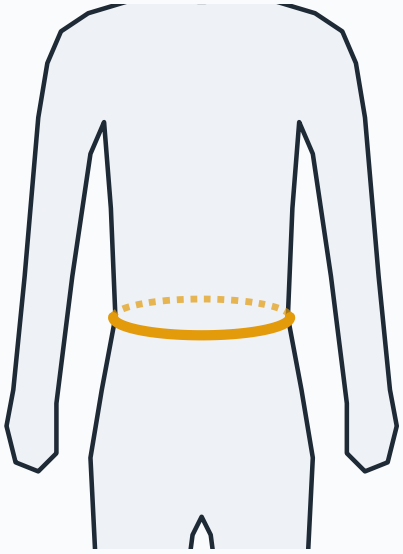

Hold the tape horizontal.

## 6 Chest

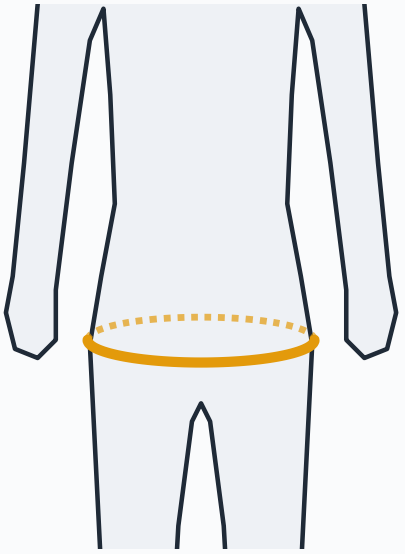

Measure around the fullest part of the chest, under the armpits and across the shoulder blades.

Stand naturally, breathe normally.

## 7 Waist

Measure around the narrowest part of the torso, usually just above the belly button.

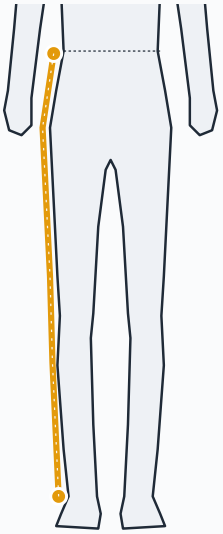

## 8 Hips

Measure around the fullest part of the hips and buttocks.

Keep feet together.

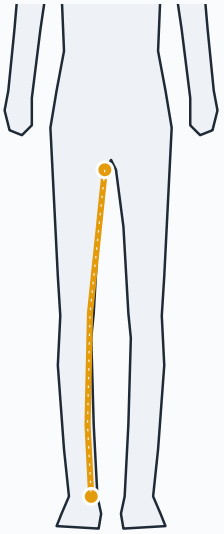

# How to take measurements

## 9 Outseam

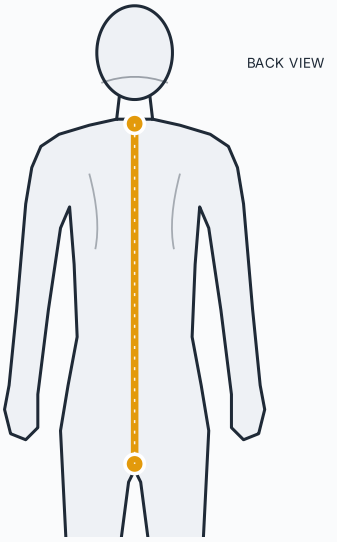

Measure from the natural waistline down the outside of the leg to the ankle.

## 10 Inseam

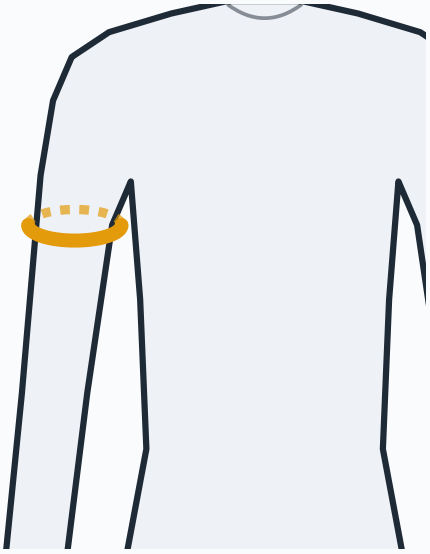

Measure from the crotch down the inside of the leg to the ankle.

Barefoot, feet slightly apart.

## 11 Body length

Measure down the back from the base of the neck to the crotch line.

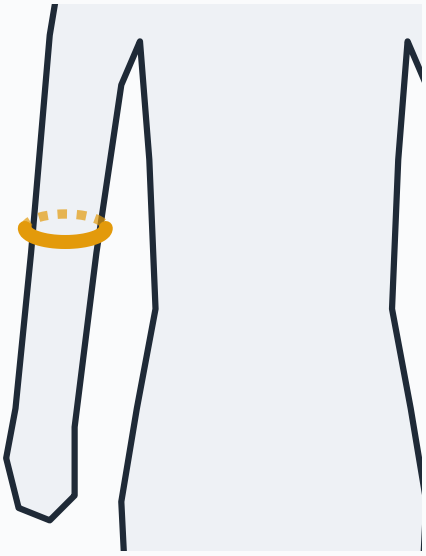

## 12 Bicep

Measure around the fullest part of the upper arm, with the arm relaxed at your side.

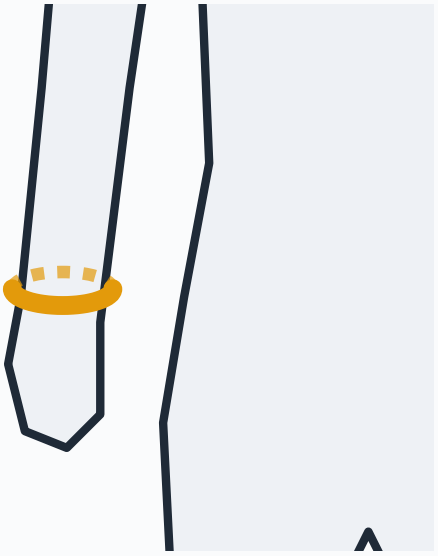

# How to take measurements

ARMS & LEGS · 13–16

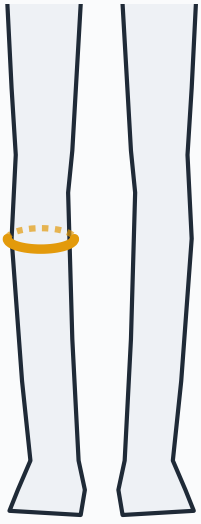

## 13 Forearm

Measure around the widest part of the forearm, just below the elbow.

## 14 Wrist

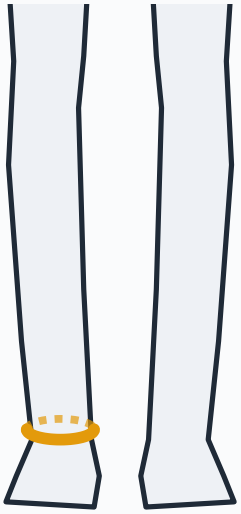

Measure around the wrist, over the wrist bone.

## 15 Calf

Stand with your weight on one foot and measure around the widest part of the calf. Then measure the other calf.

**Write down the larger value.**

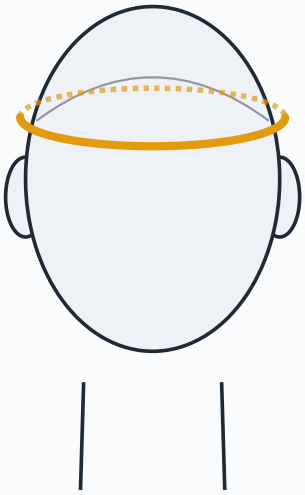

## 16 Ankle

Measure around the ankle, over the ankle bone.

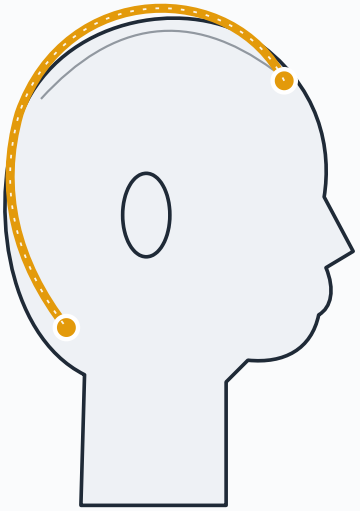

# How to take measurements

HEAD · 17–19 · OPTIONAL

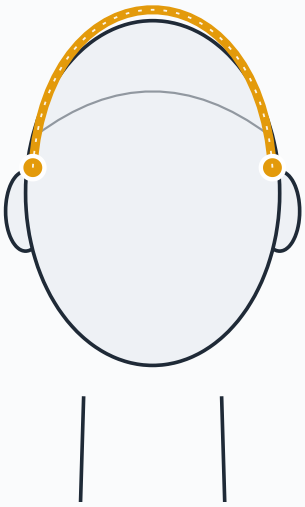

## 17 Head circumference

Measure around the head along the hairline: across the forehead, above the ears and around the back of the head.

## 18 Forehead to nape

Measure from the hairline at the centre of the forehead, over the top of the head, to the hairline at the nape of the neck.

## 19 Ear to ear

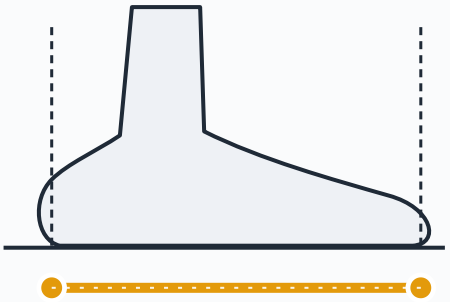

Measure from the hairline above one ear, over the top of the head, to the hairline above the other ear.

### Masks and helmets

These three measurements are only needed for costumes with a mask, helmet or headpiece.

Measure over the hair the way it will be styled during the show. If you wear a wig cap or a wig under the helmet, measure with it on.

A photo of your head from the front and from the side also helps us a lot.

heel to longest toe

## 20 How to measure your foot

Stand on a sheet of paper with your heel against a wall. Mark the tip of the longest toe and measure from the wall to the mark. Measure both feet and use the longer one, then find your size in the table.

## 21 How to measure your hand

**Length:** from the base of the palm (the crease at the wrist) to the tip of the middle finger.

**Width:** around the palm at its widest point, just below the knuckles, without the thumb. Measure your dominant hand.

| Size (unisex) | Length, cm<br>base of hand to tip of middle finger | Width, cm<br>around the palm |
|---|---|---|
| **XS** | 17 | 17.5–19 |
| **S** | 18 | 18.5–20 |
| **M** | 19 | 19.5–21 |
| **L** | 20 | 20.5–22 |
| **XL** | 21 | 21–22.5 |
| **XXL** | 22 | 22–23.5 |

If you are between two sizes, choose the larger one.
